## LEADING TEST GARDENS

**CRIMSON GLORY** A velvety-crimson rose you'll never beat for lovely form, depth of color and fragrance! Number 1 favorite of the American Rose Society for years; also voted most fragrant rose in existence. It's a toss-up whether this rose or NEW YORKER is the best red. \$1.90 ea.; 3 for \$5.45

**CHARLOTTE ARMSTRONG** This one's enormous...over 6" across, and perfect in every way. A great favorite out in California. It's a deep-glowing rose-red; lots of blooms all season. \$2.15 ea.; 3 for \$6.20

**DIAMOND JUBILEE** Holy smokes, what a rose this is! A big, full bloom 6" and more across, of warm buff-orange. Sparkles and glistens in the sunlight. Heavy petals don't fade or burn...stems are very strong and straight. Very resistant to disease. Unique color and husky growth. \$2.15 ea.; 3 for \$6.20

**FORTY-NINER** A brilliant two-color rose...inside of petals bright chrome-yellow, outside a vivid red. Color changes as you look at it from side to side. Swell form and good grower. \$2.15 ea.; 3 for \$6.20

**K. T. MARSHALL** Here's a pink rose that's in a class by itself! Big and beautiful...it's the kind of rose you'll always love and admire. Huge graceful buds; slow opening and rich pink color. \$1.90 ea.; 3 for \$5.45

**MANDALAY** Largest of all yellow roses; blooms frequently over 6" across! And it's a brilliant golden yellow color that never fades. Stands out in your garden like a beacon of beauty. \$2.15 ea.; 3 for \$6.20

**NEW YORKER** A lot of experts call this "The BEST Red Rose of All Time!" Guess they're probably right too. It sure is a humdinger...so red it almost makes you blink your eyes when you look at it. Easy rose to grow...always bright and showy. See color picture on other page. \$2.15 ea.; 3 for \$6.20

**PEACE** Rose experts and catalog writers go stark raving mad when they try to describe this...It's so beautiful!...So perfect!...So darned awful easy to grow! I've told hundreds of customers, "Peace is without exaggeration the finest and most beautiful rose in the world." Order one if you don't have it already. I'll refund double your money if you don't say it's the best rose in your garden. \$2.65 ea.; 3 for \$7.65

# I'VE WORKED HARD TO MAKE THIS CATALOG HELPFUL TO YOU! PLEASE READ IT PAGE BY PAGE...

**Remember, I Guarantee Satisfaction or Your Money Back!**

This new catalog's jam-packed full of NEW IDEAS, NEW PLANTS and NEW WAYS TO MAKE YOUR PLACE PRETTIER. I've been lucky in finding a lot of swell plants that have something 'special' to offer. Take the "Candy-Cane" Tree Roses on page 10 for example...these have been sold widely out in California, but Geneva Gardens offers them here in the East for the first time. They'll make your garden the showplace of your neighborhood. (So will lots of other plants in this catalog!)

## HERE'S WHY YOU CAN BE SURE OF ABSOLUTE SATISFACTION

Maybe I don't have the biggest nursery in the country, or the biggest, fanciest catalog...but believe me, I sure DO have the BEST PLANTS. You can count on getting personal service and attention from me. From the time roses and trees are planted in the nursery until several years later when they're dug, examined and then packed for shipping to you...I know how they're growing because I watch them week-in and week-out. After seeing a row of my own Lombardy Poplars grow up to become beautiful 6 and 8 foot trees, naturally it's a simple matter to guarantee that those same trees will flourish when you plant 'em on your property. (That's why I'm so sure about the Tall, Slender LOMBARDY POPLARS offered on page 26 of this catalog.)

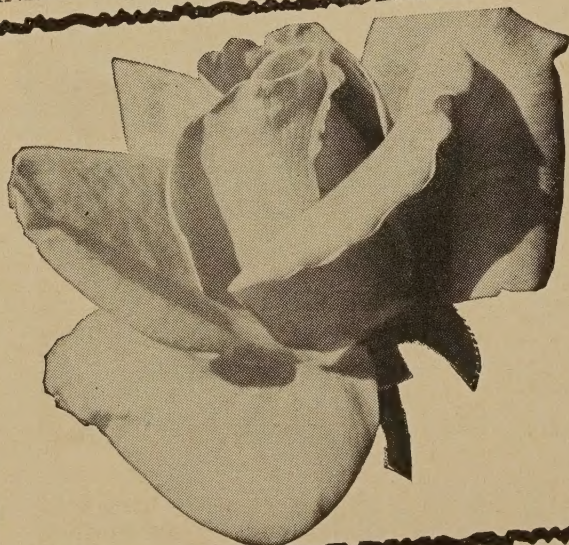

## IT'LL PAY YOU TO GO THROUGH THIS CATALOG CAREFULLY

I've grown all the plants and written every word in the catalog. You and your garden have been uppermost in my mind all the time. That's why I urge you to study each and every page...get ideas, learn new things and then order the best plants money can buy. Once you send me the order, you can count on me to do my part in every way!

BUT HERE'S THE MOST IMPORTANT PART...my stock on many of the best items is limited. As word of my plants and my service gets around, orders come pouring in so that I'm very likely to be swamped. It just breaks my heart to turn down any of my customers...so please SEND ME YOUR ORDER JUST AS EARLY IN THE SEASON AS YOU POSSIBLY CAN. BETTER DO IT RIGHT AWAY! DO IT TO-DAY, SO YOU DON'T FORGET!

## **"Pink Dogwood" ROSE BUSH**

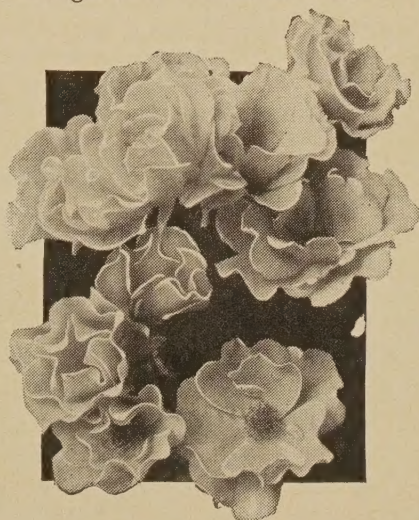

Next June when my amazing 'Pink Dogwood' Rose blooms in your garden, you'll think some practical joker tied on masses of flowers from real Pink Dogwood Trees. You'll have dozens of blooms to every stem...dozens of heavy stems completely cover the whole plant. And best of all...the 'Pink Dogwood' Rose blooms so constantly the word 'everblooming' seems inadequate. You absolutely can't beat this rose for clusters of color from June through frost. No matter what you might plant, no matter how much you spend...nothing else can compare with this amazing bush. Each bloom has eight or ten petals, measures 3 to 4 in. across and looks exactly like a *double* Pink Dogwood blossom. Every branch on every plant is weighed down by the masses of flowers. Bushes remain 3 to 4 ft. tall.

### ***'Pink Dogwood' Rose Provides Continuous Color***

Plant this amazing rose any place you need a mass of rich pink color. Whether you want one plant or a whole hedge, try this rose in preference to anything else. It makes a grand show in front of evergreens...ideal along walks and drives...superb for color accent scattered through the garden...in fact, I don't know of a single location where this rose wouldn't delight any gardener. Plant these for a 3 ft. flowering hedge that's always in bloom.

### ***Blooms Guaranteed In Just 10 Weeks!***

Every plant individually examined for sturdy canes, husky roots; State inspected to insure healthy, disease-free plants; grown and packed under my own personal supervision. Hedges of my extra-heavy plants will fill in quickly, give you protection and gorgeous masses of blooms within 10 weeks after you plant them!

So bright, these roses actually seem to 'glow' at dusk!

## ▲ GRUSS AN TEPLITZ

Huge scarlet red blooms like the one above (only much bigger!) cover the giant 6 foot plants all season. Get them planted this Spring, and by next Summer you will rub your eyes in amazement...one of these plants covered with the beautifully formed dazzling red roses is truly a sight to behold! So free...so vigorous that the enormous blooms are in huge clusters all over the plant. Such a marvelous plant in any garden that it has been a favorite with experienced rose-growers for 55 years.

Folks who have grown this scarlet beauty, who have seen it perform right in their own garden say, "*Gruss an Teplitz stays, and stays, and stays. Absolutely the best of all roses for bold, striking garden decorations...you have never seen anything like it in your life!*"

Generous blooms, striking red color and amazing growth make this one of the best of all Giant Shrub Roses. It'll look beautiful in foundation plantings around the house...it's ideal for planting right in with your flowering shrubs, or it's gorgeous in the lawn as a specimen bush.

\$1.50 ea.; 3 for \$4.45; 6 for \$7.95

## BELLE POITEVINE

### Clusters Of Dazzling Pink Roses

Each plant is so covered with clusters you'll hardly see the foliage! Yes sir...these buds frequently come a dozen or even MORE right on the same stem. And pretty! The bright pink roses have a lovely shape unlike any other. They're irregular and graceful, with deep indentations all around each petal. All season your new plants are just covered with these gorgeous pink clusters.

\$1.50 ea.; 3 for \$4.45; 6 for \$7.95

## PINK GROOTENDORST

Millions 'n millions of lovely clear shell-pink blooms in huge clusters...Giant size bushes loaded with color all summer, once plants are well established. Each individual rose has the peculiar shape of a carnation, with as many as 20 and 25 such blooms to each stem. No wonder the bush stands out so prominently...the generous shell-pink masses cover the 6' bush.

\$1.50 ea.; 3 for \$4.45; 6 for \$7.95

**"You Must Be Completely Satisfied or I Won't Keep a Dime!"**

Maybe that sounds pretty strong for a nurseryman's guarantee, but I mean every word of it. Lots of folks tell me they've ordered by mail from nurseries and gotten stuck good. Well...try me and I'll prove you can really buy the best plants in the world from a mail-order nursery. Then you be the sole judge of results. If you're not completely satisfied in every respect that you got your money's worth, just let me know and I'll send back every penny.

Tree Roses are over 4 feet long; they're very delicate and easily broken. Growing, handling and packing them for shipment takes time and materials. That's why they're so much more expensive than ordinary rose bushes.

Richer color...enormous blooms, better form, lovelier buds! You'll get the most beautiful roses you've ever seen in your life from these magnificent tree roses of mine. One customer told me that his tree roses were so beautiful that they were worth \$25.00 a piece to him. That's no exaggeration either because the blooms you get on tree roses are absolutely unequaled in any respect. If you like roses and want to see perfection for color, form and size, then plant tree roses this Spring.

## **EASY TO GROW—BEAUTIFUL ANYWHERE**

They'll grow and bloom just like a bush rose except that the flowers are more beautiful. Tree roses don't require any special care or attention...yet their superb beauty and striking appearance will take your breath away. Tree roses fill a very special place in any garden large or small. No matter where planted, no matter how used, even one tree will make the most beautiful garden seem more beautiful...will make an ordinary back yard seem like an estate.

# Climbing Roses -

**YELLOW PRIMROSE CLIMBER**

## ◀ **PRIMROSE (left)**

*Bright Yellow Blooms By The Million!*

Here's the climber to plant if you like cascades of bright yellow blooms in great clusters. Each individual rose is a beauty! Has all the form, fragrance and size you could want... PLUS its clusters of blooms covering the plant from top to bottom. When PRIMROSE bursts into masses of yellow, it fairly dazzles you with its splendor. Very double blooms produced freely; warm, rich color and waxy green foliage.

**\$1.55 ea.; 3 for \$4.45**

## **2 MORE EVERBLOOMING CLIMBERS**

**NEW DAWN**... Apple blossom pink climber that re-blooms all summer. One of the favorite ever-blooming climbers! Very delicate pink coloring. Perfectly formed roses keep appearing as if by magic during July, August and September.

**\$1.95 ea.; 3 for \$5.65**

**CLIMBING PEACE (illus. below)** Look at the color picture of PEACE inside the front cover... then imagine blooms like these covering a 10 or 12' climber ALL SEASON! Yes... Climbing PEACE is an everblooming climber... keeps blooming off and on all season! Needs winter protection in cold areas.

**\$2.65 ea.; 3 for \$7.65**

**CL. PEACE**

**AMERICAN BEAUTY (Climbing)**... Large, fully double blooms of rosy-carmine cover the plants in June... re-bloom frequently. American Beauty has long been one of the favorite roses, widely known and loved for its outstanding color and form. **\$1.65 ea.; 3 for \$4.65; 6 for \$8.95**

**DR. VAN FLEET**... Huge blooms of lovely pale pink. Actually as big and well formed as a perfect Hybrid Tea rose. Strong grower with rich glossy foliage, strong stems that hold the delicate apple-blossom pink blooms above the foliage. **\$1.40 ea.; 3 for \$4.00; 6 for \$8.00**

**TALISMAN (Climbing)**... The famous and widely planted Talisman rose in climbing form. A glorious combination of orange, yellow and rose-red. Huge blooms are as big and perfect as the Hybrid Tea of the same name. Blooms freely and persistently, but needs some winter protection in exposed locations. **\$1.40 ea.; 3 for \$4.00; 6 for \$8.00**

**BLAZE**... Bright scarlet blooms in clusters, just like Paul's Scarlet Climber described above. Well established plants may re-bloom during August and September.

**\$1.75 ea.; 3 for \$4.95; 6 for \$9.50**

**ALL CLIMBING ROSES SHIPPED PREPAID**

# THOUSANDS OF BLOOMS IN LIMITED SPACE

**PAUL'S SCARLET CLIMBER** is literally covered with clusters of scarlet red blooms like these. No other climber has such dazzling red color; huge clusters of roses all on one stem!

## PAUL'S SCARLET CLIMBER

Clusters of bright scarlet blooms like these completely cover the plant from top to bottom. Each bloom is 2 to 3 inches across, and they're produced in heavy clusters of a dozen or more such blooms to every stem....Once established, every plant is like a blazing sheet of dazzling scarlet; from top-to-bottom the masses of scarlet roses hide the foliage. Most popular and reliable of all red climbers, because the rich color remains clear and brilliant throughout the long life of the blooms. Doesn't fade like so many red roses, remains bright and clear all the time.

Paul's Scarlet Climber is so rugged and vigorous; so fast growing and so free flowering that it's been the favorite red climber for years. You've seen it on porches, garages, fences, walls and just about everywhere that a riotous mass of color was appropriate. Plant several in YOUR garden this Fall for a similar cascade of scarlet beauty.

\$1.50 ea.; 3 for \$4.25;  
6 for \$8.50

## A REAL Everblooming Climber!

**CLIMBING SUMMER SNOW...**  
Always In Bloom from June to frost!

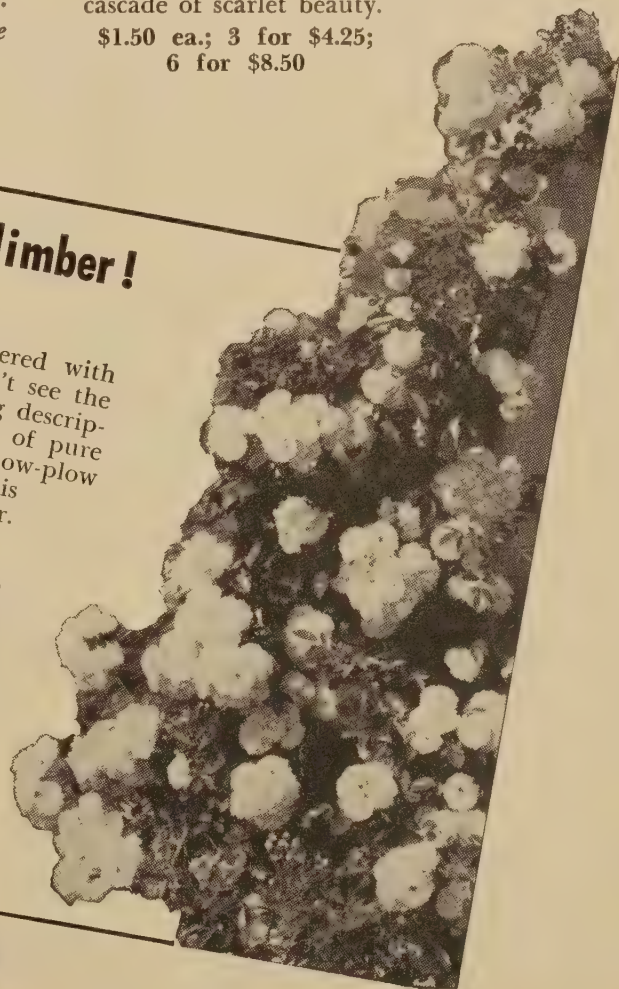

I've seen this climber so completely covered with huge clusters of pure white that you couldn't see the foliage at all! That's not just a fancy catalog description, either...it's the absolute truth! Clouds of pure white blooms swirl around this plant like a snow-plow going through a 3 foot drift. Each bloom is double, 2" across with a brilliant yellow center.

**Plant On Posts or Against Fences**

Once the heavy June bloom has passed, Climbing SUMMER SNOW starts re-blooming...and keeps producing more and more clusters of purest white ALL SUMMER LONG. It's so everblooming, I've seen established plants with dozens and dozens of roses on them even into October. Long after your roses have begun to wane, this climber will keep on blossoming until hit by killing frost.

## "PLANT-THEIR-OWN" Trees for Youngsters

**Help a Youngster  
Discover a Whole  
New World - Just  
as My Daughter &  
Her Pals Are Do-  
ing In This Photo**

Each tree permanently labeled with child's name (see upper photo)

**Price Includes Tree, Child's Name on Permanent Marker, Certificate and Story**

Here's an idea that's captured the imagination of every family who's read about it! — of everyone who knows a child! The opportunity to share your gardening interests with your best pals — your kids! Yes, I mean Plant-Their-Own Trees for your youngsters!

It all started when I planted a McIntosh Apple tree the same size as my little girl — more than ten years ago. She said it was HER TREE! From that day on, it's been HER tree. She's babied it; watched it grow lovelier with the seasons; gathered its fruit — and adored it. It's been the only belonging that's matured with her...one she'll never possibly outgrow!

In fact, when I planted that little tree, (though I didn't know it then) I'd set the roots in deep for both — my daughter and that "special" tree of hers.

FOR BOYS: A McIntosh Apple Tree,  
or A Lombardy Poplar.

FOR GIRLS: An Elberta Peach,  
or Silver Maple.

**BE SURE TO TELL ME WHAT KIND OF TREE YOU  
WANT AND SPELL CHILD'S NAME CLEARLY**

You'll be more than repaid for your time and money when you see the children's enchantment in the magic of growing things!!!

...And speaking of being more than repaid...don't you wish you had a sturdy, lovely tree for every \$2 or \$3 you've spent for a flimsy toy — one that didn't even last a short week? The simple truth is that Plant-Their-Own Trees for Youngsters are the most inexpensive gifts you can give and, in addition, will far outlast ANY TOY you can buy!

Treat the children you love to a tree that will mean a lifetime of pleasure and happiness! Your money back if your gift doesn't delight both you and the lucky child!

### COMPLETE "PLANT-THEIR-OWN" KIT INCLUDES THESE 4 THINGS!

1. **TREE**—Selected, specially packed tree 3 to 4 feet tall
2. **TAG**—Special name tag, permanently inscribed, grows with tree
3. **CERTIFICATE**—Ownership certificate and planting record
4. **STORY**—Story of tree's history and "pedigree."

# LIVING FENCE SUGGESTIONS.....

If you're interested in planting a 'Living Fence', I'm certainly the man to help you do the job right. Whatever your problem, it's a sure thing I've run across it with one of my other customers, and I've helped them work out the right answer. I'll sure be pleased to do the same for you! Guess I've done more to popularize the idea of a LIVING fence than anybody else in the country.

The main reason I've satisfied so many people is that my Multi-flora Rose plants are grown especially for fencing purposes. They're great big field-grown bushes that are 3 to 4 feet high before I dig 'em out of the nursery. Then they're cut back to 12 inches or so before they're shipped out. That gives you a big strong root system and a little bitty top on it. When those roots get well established in your ground, the new growth comes up nice and thick. It's only a few months before you have 3 or 4 feet of new growth.

But...if you don't want a Living Fence 5 or 6 feet tall...and so dense even a kitten can't get through it, then read about some of the other Living Fence suggestions I have to offer. There's a "Living Fence" suitable for any special location.

## 2 or 3 foot FLOWERING HEDGES

If you want a Living Fence that blossoms ALL SUMMER...one that won't grow over 2 or 3 feet tall, then DON'T plant my Multi-Flora Roses! For All-Summer bloom on low rose hedges, you need my Floribunda Roses, which I call "Cluster" Roses so you can remember them easily. They're on pages 6 and 7. Look at the clusters of blooms they bear; read about the colors. And for the best 3 foot flowering rose hedge, look at that 'Pink Dogwood' Rose on the cover. It's the ideal "Everblooming Rose Hedge"!

### RECOMMENDED PLANTS:

"Pink Dogwood"  
Rose — see p. 5

Cluster Roses —  
see p. 8-9

Dwarf Spirea —  
see p. 27

## 6 to 8 foot DENSE, SOLID HEDGES

Now...on 6 to 8 foot hedges, you get into my Multi-Flora roses. They're not going to bloom all summer, and you can't very well keep 'em down small. But...if you need high, dense protection, then plant my Multi-Flora Roses for lightening-quick results. For slower results in 6 to 8 foot hedges, plant Lilacs, Giant Shrub Roses, Forsythia, Spirea Van Houtte, Bush Honeysuckle, Altheas or any of the other flowering shrubs listed on pages 28 and 29.

### RECOMMENDED PLANTS:

Multi-Flora Roses  
— see p. 16-17  
and Back Cover.

Hybrid Lilacs —  
see p. 28

## VERY TALL SCREEN PLANTINGS

Need something really T-A-L-L? Then there's just one quick answer. Read about my TALL, SLENDER LOMBARDY POPLARS on page 26. Now there's a plant that makes a screen planting anywhere from 15 to 40 feet high, but if you plant 'em close enough, they're so dense you can't even see through 'em. And they grow fastest of any tree too! The other trees suitable for screen plantings are Willows and Chinese Elms, both dense, fast-growing trees!

### RECOMMENDED PLANTS:

Lombardy Poplars  
— see p. 26

Chinese Elms —  
see p. 25

**SO DENSE NO PERSON**

## Selected Ed Scofield MULTI-FLORA ROSES

*See A Living Fence in Color on Back Cover*

The toughest, fastest growing hedge in the world! Actually makes a dense, impenetrable screen in just a few months. Yet they're beautiful. Covered with roses in June; loaded with red berries in the Fall; green and full right to the ground all season. The most beautiful, inexpensive "fence" you can buy...and it needs absolutely no special care!

### **EASY TO PLANT; STAYS THE SIZE YOU WANT IT**

These vigorous, husky plants of mine don't demand any special soil or location. Just plant them 18 inches apart and the plants do all the rest. You'll have your own 3 to 4 foot Living Fence in just a few months. Trim lightly with hand clippers if you want the hedge low and broad; trim only the sides if you want your Living Fence to become 5 or 6 feet tall.

### **IDEAL FOR BOUNDARIES, YET NO OFFENSE TO NEIGHBORS**

All your friends and neighbors will rave about your gorgeous Living Fence with its profusion of roses and red berries. So rich and green that no matter where you plant it, no matter how tall you let it grow, how dense it becomes...everyone will only admire and praise. Yet you'll have more privacy and more protection than you could get even from a brick wall!

Planted in March, this Living Fence grew enough by July to keep the youngsters in the yard! No other plant protects you so fast.

### **GROWS VIGOROUSLY ANYWHERE**

*My special strain of Multi-Flora Rose thrives and grows fat on poor soil, cold weather and lack of care. It will flourish where other plants wither and die.* I guarantee that if your soil is good enough to grow a healthy crop of weeds, these Ed Scofield Living Fence plants will grow and flourish beyond your wildest expectations. Just set the plants carefully with the roots well spread out, cover them with finely pulverized soil and water thoroughly. Then simply trim the new growth to keep the plants compact. It'll be thicker, more dense and more impressive each year. In no time at all, you'll have a solid screen planting that requires practically no care at all. Bugs don't bother it...it's disease resistant...and hardy enough to withstand even below zero temperatures.

A trimmed Living Fence already 3 ft. high. This one was planted in October (1950); photograph was taken in the following July.

FARM FENCING

## RECOMMENDED BY U. S. DEPT. OF AGRICULTURE

Multi-Flora Roses are so tough and hardy they're officially recommended to take the place of barbed wire fences on farms. Once established, a Living Fence will keep horses, cows, sheep, goats or pigs inside a pasture lot. Intruders can't get in; animals can't get out. Also recommended by the U.S. Soil Conservation Service and by many State Conservation Departments. A farm fence that actually mends itself.

## ECONOMICAL PLANTING FOR FACTORIES AND INSTITUTIONS

Factories and Institutions all over the country have planted Living Fences to beautify and protect their property. Nothing can hurt these tough, fast growing boundary plantings, yet they'll do the same job as an expensive wire fence...and do it better! Smoke resistant...dirt resistant...disease resistant, it grows under almost any condition. Makes an inexpensive, very practical planting wherever you need a solid, dense wall of attractive foliage. In such locations, do not trim your Living Fence after the first year and in time it will become 6 or 7 feet high and 5 or 6 feet through.

# Geneva Gardens Announces An *Amazing* **COMBINATION SPRAY & FERTILIZER**

**Fertilizes THROUGH the Leaves!**

**Prevents Fungus Diseases!**

**Kills Harmful Insects!**

*{ Simply Apply This ONE Amazing Solution Every 10 Days and Your Garden Will Flourish as Never Before! }*

This amazing combination Spray-And-Feed solution brings to gardening all the modern miracles of 20th Century scientific development. Yes...you can actually feed your plants right through the leaves, kill harmful bugs and control fungus diseases with just one single spray. Tests at Universities, Botanical gardens and in commercial orchards prove such combined spraying is the quickest, easiest way to make plants flourish as never before. And now... thanks to Geneva Gardens...you too can do this combined Spraying and Leaf Feeding in your garden this very summer!

#### **HEALTHIER PLANTS ARE BIGGER, MORE BEAUTIFUL**

Roses fed through the leaves grow twice as tall... have more blooms of bigger size and better form. The special nitrogen contained in this spray is the same chemical DuPont sells to orchardists by the carload. It's absorbed right into the leaves within minutes after you apply it. Meanwhile, the bug and germ killing chemicals control the insects and plant diseases. You don't need any other spray or fertilizer if you use this new Geneva Gardens Combination!

#### **LEAF FEEDING AND SPRAYING A COMMON PRACTICE IN NEW YORK STATE ORCHARDS**

This highly developed, scientific Combination Spray contains DDT, Fermate, Rotenone, Sulphur and other "bug" killing chemicals. It also contains Uramon, the special nitrogen product made by DuPont especially for foliage feeding of plants. I've discovered that orchardists who grow hundreds of acres of fruit within a few miles of Geneva have been using combination sprays like this regularly. Naturally, I want my customers to be able to do the same thing in their own gardens. That's why I'm so enthusiastic about your trying this amazing Combination spray yourself.

#### **FEEDS THROUGH LEAVES IMMEDIATELY**

Tests made in all parts of the country prove foliage feeding to be practical and fool-proof. A leading plant scientist says 50% of the nitrogen applied to the surface of leaves

9 oz.	TREATS 24 ROSES A WHOLE SEASON	\$ 2.75
24 oz.	TREATS 75 ROSES A WHOLE SEASON	4.25

Scientific tests prove this perfect formula for complete 'One-Shot' Spray and Fertilizer Combination.

4 qt. galvanized sprayer. Builds up pressure; sprays with few strokes.

**SPECIAL OFFER .... This Easy-Pump sprayer and 9 oz. of my amazing Combination Spray solution (enough to treat 24 rose bushes for an entire season) .. BOTH FOR \$5.65 (Order Group 52)**

enters the leaf within just one hour...makes foliage greener; builds up plant resistance; increases vigor and results in bigger, better blooms. At the same time, the pesticides in this Combination kill bugs and prevent diseases like black-spot of roses.

#### **ABSOLUTE SATISFACTION GUARANTEED**

I guarantee that if you spray your garden plants with this Combination every 10 days regularly, you'll have the most beautiful, pest-free and disease-free garden you've ever had in your life. Start spraying in early spring when soil nutrients are low and before insects or diseases take hold. Use first application when new growth is about 1/2 inch long, and then spray regularly every 10 days or 2 weeks.

## SHIPPING DATES

Your plants will be shipped to you at the proper planting time for your locality. Based on my experience and weather reports, I know when the plants should reach you and will try to get them there at the right time.

## ALWAYS USE SAME ADDRESS

Always use the same address when ordering or when writing letters. Frequently, customers have more than one address (home — business — summer cottage) in different towns. Our files are set up by city name so be sure to let me know if you have more than one address. All members of the same household should order in the same name. If you write on business or office stationery, be sure to let me know whether you're ordering for yourself or your company.

## SPECIAL NOTES, INSTRUCTIONS, QUESTIONS

If you have any special messages to send with your order, please put them on a separate piece of paper and we can thus handle your order and your correspondence more quickly. Be sure to put your name and address on the separate note.

## CHANGES IN YOUR ORDER

Our shipping department is handling thousands of orders from early March until the end of April. At that time your order may not be filed where we can lay hands on it quickly. So please don't ask for changes or cancellations at the last minute. We may not be able to find your order in time to do what you ask.

## CHARGE ORDERS

If you wish to charge an order, please be sure to give us three references so that we can establish a charge account in your name.

## DAY OR TIME OF ARRIVAL

Customers often request that plants be delivered on Friday. This is impossible from my end because once an order is turned over to the Post Office or the Railway Express Agency, I have no control over the length of time they will take to deliver it. If you want plants SHIPPED on a certain day, I'll comply with your request, but cannot assume responsibility for delays in transit.

## DO WE HAVE YOUR NAME AND ADDRESS CORRECT?

If the name and address on the envelope this catalog was sent in are not correct, please notify us so we can bring our files up to date. Incorrect addresses may mean orders sent to the wrong place.

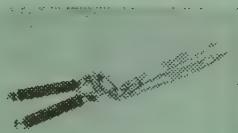

**2 1/2 Gal Tank Sprayer**

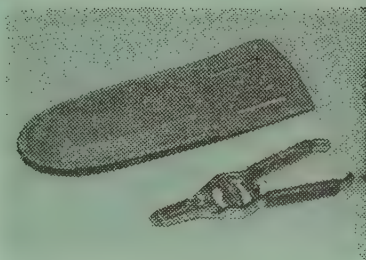

**Duster**

**Easy Pump Sprayer**

**Grass Clippers**

**Scabbard and Pruning Shears**

### **EASY PUMP SPRAYER**

The most inexpensive and best of all the handsprayers I've tried. Holds almost 3 quarts of liquid spray; easiest of all to use. Slight pressure on the pump gives a continuous spray. Just 3 or 4 strokes and you have a fine mist that will cover both the top and underside of foliage. Tank and pump of heavy gauge, galvanized steel, made to last a lifetime, easy to clean. The ideal sprayer for all small gardens.

**\$3.25 Postpaid**

### **2 1/2 GAL. TANK SPRAYER**

Here's the ideal high pressure tank-type sprayer...easy to use, moderately priced, satisfaction guaranteed. The welded tank is made of prime galvanized steel. You simply pump up pressure, carrying the sprayer on your shoulder and the spray is released by merely squeezing the handle.

### **LEATHER SCABBARD FOR HAND TOOLS**

Wear this on your belt and your tools are always right at your fingertips. Your pruning shears won't tear your clothes or get stuck in your pockets; you won't lose them. One of the most convenient garden tools I've found in the last 20 years. Made of finest top grade cowhide, sewn with heavy waxed thread. Slotted end for easy belt attachment. You can't imagine the convenience of keeping your garden tools in this scabbard, always right at your fingertips. Try one and if you're not delighted, I'll refund double your money.

**\$1.95 Postpaid**

### **DOUBLE-EDGED PRUNING SHEARS**

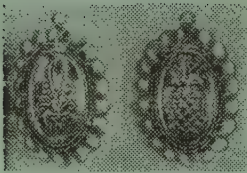

Scissor-action shears with tapered cutting edge on both blades. Ideal for pruning roses, trimming your Living Fence, for cutting back shrubs, or picking flowers. They cut like a hot knife through butter. Finest cutlery steel insuring long life. They'll cut like magic for years. Weigh only 5 oz. Rubber covered handles provide a soft, easy grip. Satisfaction guaranteed.

**\$1.95 Postpaid**

### **LIGHTWEIGHT GRASS CLIPPERS**

These are the only grass clippers that absolutely give you a full blade-length cut. They actually cut the entire length of the blade without any tiresome chewing or pulling as you have with other grass clippers. Made of finest cutlery steel, the blades stay sharp longer. Rubber covered handles give soft, easy, no blister grip. Its exclusive streamlined design gives you good "nuckle clearance", prevents barked nuckles and skinned fingers. Patented steel lock operates with a flick of your thumb.

## CHOOSE ONE OF THESE FAVORITE VARIETIES

### Dwarf McINTOSH APPLE Trees

My 'baby' trees are already 3 to 4 ft. high; heavy-rooted, vigorous...they're in prime condition to amaze you when they start growing in your garden. Soon you'll pick crisp luscious apples with tender white flesh...oozing sweet nectar-like juice. McIntosh apples are unsurpassed for eating; they beat all other varieties by a mile! These special baby dwarf trees of mine give you tremendous crops of big, luscious bright red apples late in September...every apple simply bursting with vitality, and so juicy I've thought of sending out bibs with every tree! Crisp...tasty...honest-to-goodness, it's a treat every time you eat one of these apples.

There's room for at least one of these 'baby' trees in even the smallest garden plot. When fully grown, they're only as big as a lilac bush so you don't have to worry about them crowding your roses, perennials and other plants.

**\$3.95 ea.; 3 for \$11.65 (postpaid)**

### Dwarf BARTLETT PEAR Trees

So juicy you'll eat 'em with a straw! Gorgeous big yellow pears that have more juice, MORE flavor and MORE vitamins than any other pear known. Bartlett has been the top favorite variety with home-owners because it's so easy to grow, yet has outstanding quality. These amazing 'baby' trees of mine will start producing the first crop NEXT YEAR, and the Blue Ribbon Pears off your own trees will be a family treat each year afterward. You'll pick bushels of pears off each 'baby' tree.

Just plant these Geneva-Grown Dwarf Pear trees and the tree does the rest. Inside of a few weeks it'll leaf out and start growing. All next summer your garden will be prettier as a result. Then next Spring it should begin to show its first few blossoms...with first fruit in the Fall. Year-after-year it will continue to be beautiful in Spring-blossom, a treat for a King loaded with fruit in the Fall.

RED RICH STRAWBERRIES

*and Canning*

NEW

TRADE MARK

*"The best new everblooming strawberry since 1914", according to Minnesota Nursery Inspector George Nelson!*

It's the biggest, reddest, sweetest strawberry you could ever hope to see and, it really IS everbearing! Red Rich out-produces and out-yields all the other strawberries by a mile.

**EXTRA LARGE—EXTRA SWEET**

Red Rich is firm and sweet right clean through...retains its deep red color right through the entire berry. Has a very small core and the berry ripens evenly. So large that it hardly seems real...even a few plants in your garden will give you twice as many berries as any other variety. New plants produce a pint of berries per plant the first year. Double that after they're well established.

**PERFECT STRAWBERRY FOR FREEZING, PIES & JELLIES**

Wonderful for freezing! It remains firm and deep red all the time and doesn't mush up when it's thawed. So honey-sweet it doesn't even require sugar. Whether you eat these fresh from the garden or thawed after they've been frozen, you'll agree that Red Rich is the largest, sweetest, prettiest strawberry you've ever seen. Order while the supply lasts.

Guaranteed plants sent postpaid in time for Spring planting.

Flowering Crab Tree in Bloom

## FLOWERING CRAB TREES

What a sight these trees are in early Spring when every branch is loaded down with blossoms! So thick and full that even a bumblebee can't fly through. The pink type has **DOUBLE** flowers, making it fuller and more beautiful.

Flowering Crabs make a well-shaped specimen plant...they're about 15 to 18 feet high, vase-shaped with a spread of 8 or 10 feet. From the first show of buds in early Spring until every branch is loaded down with bright attractive crab-apples in the Fall, these trees are really a sight for sore eyes.

They're ideal in places where you want a neat, compact tree. Has generous "King-Size" beauty but will not crowd other trees.

**Selected Plants—Fully Guaranteed 3 to 4' high; Shipped Express Charges Collect.**

**RED FLOWERING CRAB.....\$2.55 ea.**

**DBLE PINK FLOWERING CRAB..\$2.95 ea.**

**PURPLE LEAF PLUM...**Deep, bronzy foliage all season. Dark copper color makes this tree prominent no matter where planted. From early Spring to late Fall, every leaf on every branch is the color of a shiny, new penny. **4 to 5' tree \$2.95 ea.**

**CHERRY, Double PINK...**Every branch seems bursting with large, double pink blossoms. Early in spring, you'll absolutely gasp with amazement at this magnificent sight. Husky 4-5 foot trees, **\$5.75 ea.**

**MAGNOLIA SOULANGEANA...**Huge pink and white blooms completely cover the tree in early spring, before leaves appear. Very, very showy! 18-24" plants **\$5.60 ea.**

## FLOWERING TREES

### WHITE DOGWOOD TREES

Covered with enormous single blooms of purest white, frequently several inches across. Each flower has 4 heart-shaped petals surrounding a dark yellowish-brown center. In early Spring every branch on every tree is so covered with these lovely blooms that it looks like a swarm of graceful white butterflies. The best known and most widely planted of all flowering trees. Not hardy in cold regions.

**White Dogwood Trees 3-4' \$4.25**

### PINK DOGWOOD TREES

Same beautiful tree as above, but blooms are rich, dark pink instead of white. The color and form of this special strain of pink dogwood has been carefully selected to insure maximum beauty, maximum bloom and complete satisfaction for you.

These guaranteed pink dogwood trees are grafted, using a special selected type of grafting wood and an understock that guarantees heavy root growth. That's why 2-3' plants of Pink Dogwood Trees cost...**\$6.00**

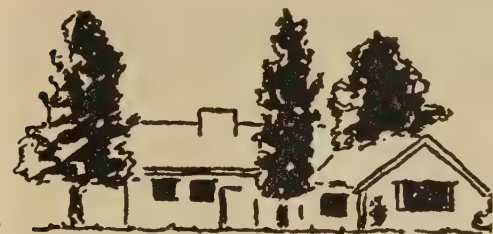

**HAWTHORN, DOUBLE SCARLET...**Brilliant red blooms completely cover every branch in May-June. Striking red berries in Fall. 15-20'. This is one of the choicest of all ornamental trees! 4-5'...**\$6.75 ea.**

**PEACH, DBLE RED Flowering...**Reaches an ultimate height of 12-15'. Every branch like an artist's dream when it's covered with beautiful double red blossoms in spring. 3-4' trees, **\$1.90 ea.**

## SHADE TREES

**GOLDEN WEeping WILLOW**...Fastest growing tree of all...grows as much as 5 or 6 feet in a single year. Unequaled for quick shade... immediate effect...gorgeous beauty over-night! These special Geneva-Grown trees have a root system you can't beat, so they make prominent, striking trees no matter where or how used. Superior for shading hot, sunny lawns; to keep hot afternoon sun off your house...in fact, they're just about perfect for any gardener or home-owner who wants shade in a hurry. You can't beat this tree to get quick shade in barren, open hot places. Long slender branches "weep" down to the ground in sweeping grace. Very vigorous...grows almost anywhere, but prefers moist ground. 6-8 foot trees \$3.55 ea.; 3 for \$9.85

**CHINESE ELM**...Another particularly fast growing shade tree. Strong, up-right trunk and large, well-shaped head; resembles other slower growing shade trees, but the Chinese Elm grows much faster...gives you a quicker effect than other Elms or Maples. Here's a quick easy way to beat the heat...cool your home...install your own air conditioning simply by planting a few of these fast growing trees where they'll shade your house. They'll lower the summer temperature as much as 10 or 15 degrees. Also increases the value of your property by many times the moderate cost of the trees. The Chinese Elm is very hardy and vigorous; not at all particular to soil and exposure. 6'-8' trees \$2.95 ea.; 3 for \$8.25

**SILVER MAPLE**...Fastest growing of all the maple trees. Foliage silvery underneath. Very satisfactory where quick effect is needed. Gets to a height of 50-60', but they break easily when they're big. 6'-8' trees \$2.95 ea.; 3 for \$8.25

**PIN OAK**...Fastest growing of all oaks. Very symmetrical, well-balanced shape...almost like a giant cone. Branches very angular, tight and close together. Main branches come out straight from the trunk. Copper-red in Fall. Ultimate height 50-60 ft. 6-8' trees...\$5.60 ea.

**NORWAY MAPLE**...Compact, well-shaped maples of steady, regular growth. Dense, rich foliage; gorgeous fall coloring. 6-8' trees...\$5.00

**SUGAR MAPLE**...When artists want a stately shade tree, they invariably paint Sugar Maples. Broad, massive heads of interesting, slightly irregular shape. Eventual height 50-60'. 6-8' trees...\$5.00 ea.

**LOMBARDY POPLAR**...Most dramatic and prominent of all trees... Very tall and slender, but completely solid with many upright branches and handsome, shiny foliage. Ultimate height 80-100 feet. Excellent for tall hedges, screens. (See illustration on next page.) 6'-8' trees...\$1.55 each; 3 for \$4.45; 6 for \$8.90

**WHITE BIRCH**...Loveliest of nature's gems...beautiful, delicate, lovely in any setting, any location. The snow white bark and the rich green foliage of the White Birch gives it a charm and character unlike anything else. The Birch is a slender, delicate tree, but its shiny white bark with finely etched lines of black make it a thing of rare beauty. (See illustration on next page.)

## "Triple-Trunk" WHITE BIRCH TREES

*I never have enough of these for everybody  
so be sure to order yours EARLY!*

The rare, hard-to-find Canoe White Birch. Snow white bark with delicate shadings and fine dark lines. Bark becomes whiter and WHITER as the tree grows. All my plants are specially selected...they have not just one, but THREE STEMS and the whitest, cleanest bark you've ever seen. This shows up beautifully with the rich green foliage, giving each "triple-trunk" Canoe Birch tree a charm and delicacy unmatched by anything else in nature. No matter where you plant 'em, they always steal the whole show. My vigorous 3 to 4 foot plants make a semi-dwarf clump when fully grown.

## TALL, SLENDER

***My Poplars Certainly Grow F-A-S-T!***

Perfect for screen plantings from 10 to 40 feet high. In a short time they'll block out unsightly views...give your property an amazing glamorous 'country estate' look...serve as a solid windbreak to protect and shelter your home and garden. These straight husky plants of mine are ideal wherever you want a tall screen that grows F-A-S-T. Trees may eventually become 40 feet high, but spread out only 5 or 6 feet at the widest part (just like the ones in the picture at right). Plant 'em closer together or farther apart, according to your own particular needs.

### **I INSPECT EVERY TREE BEFORE SHIPPING**

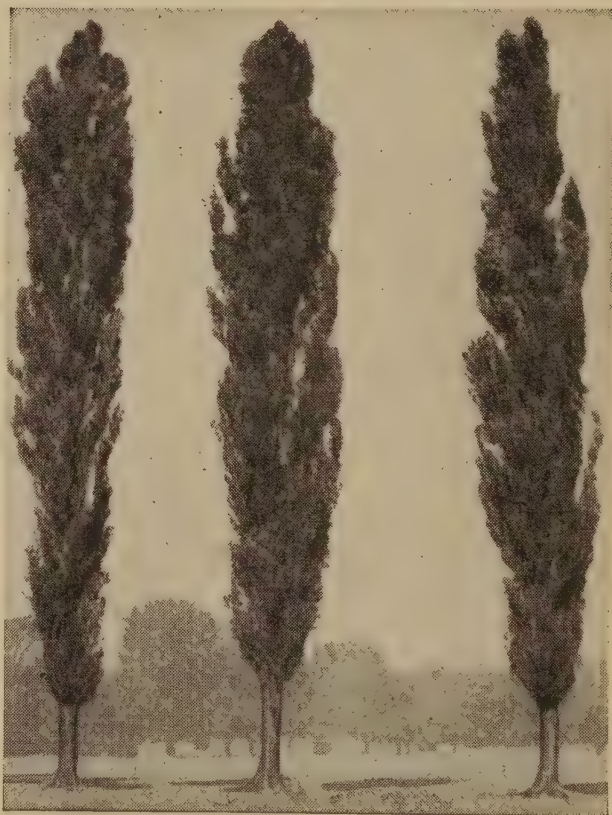

You'll get rugged sturdy trees from me because I've actually grown 'em up to 6 feet high right here in the nursery before I dig and ship to you. Each plant passes an inspection test for heavy root system...straight trunk...all round vigor and high quality or I won't let 'em go out. That's why my trees are in such terrific demand, and why they grow so well.

## BUTTERFLY BUSHES

**Bloom ALL SUMMER Long!**

(Left) All summer long 10-inch sprays like those pictured weigh down the graceful medium sized bushes. Very conspicuous; blooms when few other shrubs show any color. Makes a bush 4 to 6 ft. high, and produces more and more lovely flower spikes all summer. Often called "ever-blooming summer lilacs". Very easy to grow... dies back in winter, but comes up vigorously again in Spring.

**CLEAR PINK (Charming)** Same gorgeous spikes as illustrated, but the color's a rich clear pink. Almost looks like an artificial flower, the blooms are so perfect and the color so rich and lovely.

**WINE RED (DuBonnet)** Amazing spikes of deep rich wine red; like velvet to see or touch. This variety has 12" spikes. Blooms June thru Sept.

Either of above varieties \$1.45 each (postpaid)

### DWARF RED SPIREA...

Look carefully at the picture (left) so you don't confuse this with ordinary white Spirea! This Dwarf shrub is completely covered with red blooms up to 3" across. Each bloom is flat, but they're held erect above the foliage and honestly cover the entire plant when it's in flower. Has a very, very long blooming period... far more than ordinary Spirea... and the whole bush rarely gets higher than 3 to 4 feet. Grows well even in poor soil. Ideal for low plantings where you want neat, compact bushes.

## PEONIES (above right)

Favorite varieties of hardy peonies for planting this Spring. Will make big, vigorous clumps that bloom more profusely year after year. Very hardy and disease-resistant. No flower gives so much bloom for so little care.

**EDULIS SUPERBA**... Dark rosy-pink; enormous size and heavenly fragrance. Blooms often 7" across.

**FELIX CROUSE**... Glowing, brilliant red. Each flower so full with shaggy red petals that it looks as if it would burst apart. Also fragrant.

**FESTIVA MAXIMA**... Gigantic blooms of purest white with flecks of crimson.

**LOUIS VAN HOUTTE**... One of those deep, deep crimson peonies you never forget. Huge flowers, long stems.

**MONS. JULES ELIE**... Famous soft glowing silver-pink. A delicate color combination.

**SARAH BERNHARDT**... Clear, uniform overall pink. Stands out like a beacon of beauty no matter where you plant it.

Strong Field-Grown roots (3-5 eyes) \$1.25 ea.;  
3 of same variety \$3.50

PEONIES

## Lily of the Valley

*Giant, Super Fragrant Type*

Huge white bells twice the size of ordinary kinds, crammed together on wiry 8" stems. And best of all... the fragrance is also sweeter and more pronounced. You just can't get enough of this heavenly fragrance. Even a small bouquet will scent the whole house for a week. I don't have nearly enough of these to go around so order TODAY!

Heavy clumps... 95c ea.; 3 for \$2.70;  
6 for \$5.40

Just take a look at those 6 roses illustrated in color. . . . Imagine each one of them 2 or 3 times as big as it is in the picture! And then imagine each bush just loaded with buds and blooms like those all summer long. Get them planted this Spring and you'll have roses like these this summer. Get your order in early so I'll be sure to have the plants for you.

**These Are the Favorites With Experienced Gardeners Everywhere**

**AMI QUINARD** Intense dark crimson, almost deep as black velvet. Beautiful urn-shaped bud seems black; then opens to rich, deep crimson blooms of lovely form. Very profuse. Ami Quinard is a classic.

**CHRISTOPHER STONE** Brilliant, sparkling scarlet-crimson. Particularly profuse in its freedom of blooms all season. Very vigorous. One of the best red hybrid tea roses.

**CONDESA de SASTAGO** The leading two-tone rose. Fiery-copper red inside of petals and rich yellow outside. A riot of rich unusual colors. Very striking. Fragrant!

**ETOILE DE HOLLANDE** So perfect, it's the standard against which other red roses are judged. Superb deep color, strong fragrance and profusion of bloom have made this a favorite with everyone!

**GOLDEN DAWN** Very large rich yellow. Gorgeous buds are splashed carmine and open into enormous sunflower-yellow fragrant blooms. Large bush; 5-6" blooms.

**PRES. HERBERT HOOVER** An amazing blend of maroon and orange tones. Huge size, very profuse and richly perfumed. Considered the most brilliantly colored of all roses by experts from coast to coast.

**MRS. SAM McGREDY** Scarlet-copper-orange flushed red. Another one of those beautiful big roses with an almost impossible blend of rich color. Always a prize-winning rose.

**NEIGE PARFUM** Like a gorgeous big white peony. This is so rich in its lemon-verbena fragrance that it's recognized as the most fragrant of all roses! Try it for yourself.

**PICTURE** The finest clear pink, according to American Rose Society rating. Beautifully formed, medium-size, blooms continuously all season. Fragrant. The best clear pink!

**POINSETTIA** Magnificent rich scarlet... like glowing fire-red. One of the finest red, red roses! Has very good form, fragrance, size and everything else that's desirable in a perfect rose for your garden.

**RED RADIANCE** Deep rosy-red... with all the fine qualities you'd ever expect to find in ONE rose! A favorite since 1890.

**ROSLYN** Deep-golden yellow with darker shadings in the half-open bud. A rugged dependable performer; will give hours of garden pleasure all season.

**Any of above,**

**Postpaid \$1.45 ea.; 3 of same variety \$4.25**

# TO INSURE BEST SERVICE,

*Please Read Following Suggestions!*

---

## SHIPPING DATES

Your plants will be shipped to you at the proper planting time for your locality. Based on my experience and weather reports, I know when the plants should reach you and will try to get them there at the right time.

## ALWAYS USE SAME ADDRESS

Always use the same address when ordering or when writing letters. Frequently, customers have more than one address (home — business — summer cottage) in different towns. Our files are set up by city name so be sure to let me know if you have more than one address. All members of the same household should order in the same name. If you write on business or office stationery, be sure to let me know whether you're ordering for yourself or your company.

## SPECIAL NOTES, INSTRUCTIONS, QUESTIONS

If you have any special messages to send with your order, please put them on a separate piece of paper and we can thus handle your order and your correspondence more quickly. Be sure to put your name and address on the separate note.

## CHANGES IN YOUR ORDER

Our shipping department is handling thousands of orders from early March until the end of April. At that time your order may not be filed where we can lay hands on it quickly. So please don't ask for changes or cancellations at the last minute. We may not be able to find your order in time to do what you ask.

## CHARGE ORDERS

If you wish to charge an order, please be sure to give us three references so that we can establish a charge account in your name.

## DAY OR TIME OF ARRIVAL

Customers often request that plants be delivered on Friday. This is impossible from my end because once an order is turned over to the Post Office or the Railway Express Agency, I have no control over the length of time they will take to deliver it. If you want plants SHIPPED on a certain day, I'll comply with your request, but cannot assume responsibility for delays in transit.

## DO WE HAVE YOUR NAME AND ADDRESS CORRECT?

If the name and address on the envelope this catalog was sent in are not correct, please notify us so we can bring our files up to date. Incorrect addresses may mean orders sent to the wrong place.

GRUSS AN TEPLITZ

# GIANT SHRUB ROSES

*Gruss an Teplitz*

Huge scarlet-red blooms like these cover the Giant 6-foot plants all season. Plant 'em this Spring, and by late June you'll rub your eyes in amazement at how any one plant could be so beautiful! Huge bushes grow F-A-S-T . . . and become so loaded with stunning roses that you can hardly see the foliage. (Of course, they can die too! You've got to take care of 'em.)

"Gruss an Teplitz is absolutely the best of all roses for bold, striking garden decorations . . ." so say folks who have grown it right in their own gardens. You'll say the same thing when you see it.
